MANAGEMENT DISCUSSION & ANALYSIS REPORT:

1. This section includes discussion on the following matters within the limits set by the Company's Competitive position:

(A) OVERVIEW

GGD (The Company) is having focused activity of addressing Rice Milling Machinery business. The company is capable of addressing products as well as turnkey solution for rice milling plant. Rice milling machinery business is cyclic in nature as such company decided to address non-rice grains and successfully developed machinery for millets, wheat, spices etc. It validated company's thought process to enter in non-rice grain processing machinery.

After careful analysis and considering opportunities in non-rice grain sector, the company decided to take a concrete step in focusing on this business. The requirement was addressed by forming an associate company with subject experts who brought in with them a rich industry experience. The new associate company has shown quick positive results and gains for the company. It has helped company to graduate from existing rice milling machinery business to various other grains, legumes, and spices etc.

(B) INDIAN ECONOMY

The pandemic led to a sharp decline in global trade, curtailed discretionary spending and focused on essentials due to the level of uncertainty leading to tighter liquidity conditions. COVID-19 had far-reaching implications on the global economy and it led to the contraction in GDP of many countries, including India. It was because of reduced economic activity and restricted mobility, due to COVID-19.

The pandemic affected both demand and supply, at least in the short-term. As lockdowns eased across the world economic activity gradually started to recover. According to the Economic Survey 2020-2021, the government adopted a four-pillar strategy of containment, fiscal, financial, and long-term structural reforms. India had good monsoons, and the Indian agriculture sector achieved record food grain production and registered positive growth despite the corona virus pandemic. Rural consumption was stronger than urban demand. According to India's Economic Survey 2020-2021, India remained a preferred investment destination in financial year 2020-21.
